

# RUBBER THRESHOLD RAMP

Ramp simply sits against the doorsill (inside or outside) to provide a smooth ground-to-sill transition and is especially practical for sliding glass doors because it does not interfere with the door track. Made of 100% recycled tires, EZ-ACCESS Rubber Threshold ramps are ADA approved, slip-resistant and designed for years of continued use. Standard width is 48" (for wider entrances, simply place 2 ramps side-by-side). Ramp can easily be trimmed for lower heights and widths to fit any entrance or threshold. Ideal for indoor and outdoor use and, because it is fully portable, can easily be moved to another door or location if desired.

Two each 2 1/2" Rubber Threshold ramps and one pair of Rubber Risers shown combined to create a maximum height of 4 3/4"

SPECIFICATIONS	THR 150-1	THR 250-1	THR RISER 225-1PR
Made of recycled rubber	•	•	•
