

# INSTALLATION IS AS EASY AS 1-2-3!

## 1. DRILL IT

Position grab bar as desired and determine location of studs. Mark outer edge of flange.

Align mounting plate with marks, mark center hole.

Drill 1 1/4" hole.

## 2. INSTALL IT

Insert guide sleeve.

Insert anchor with pull tab into guide sleeve.

Pull tab until anchor is tight, remove tab.

## 3. MOUNT IT

Attach mounting plate to anchor.

Attach grab bar flange to mounting plate.

Snap flange cover over flange.
