

fits millions of vehicles worldwide.

Everyone can benefit from the Handybar®:

- Independence
- Security
- Confidence
- Mobility
- Injury Prevention
- Ease of use

Every vehicle should have a Handybar®.

IMPORTANT INFORMATION

Some late 1980s and early 1990s North American cars may have door striker pins that are not suitable for the Handybar®.

Please ensure that your vehicle door striker has two screws or bolts attaching the striker to the doorframe. If your vehicle has a light switch in the striker, be sure that the Handybar® does not interfere with its operation.

For more information or customer support, visit our website at **www.handybar.com** or call our customer support line, toll free within North America: **1-888-738-0611**.

Recommended by Doctors and Health Professionals

Everyone can benefit from the Handybar®:

- People with physical challenges
- People recovering from surgery or injuries
- People with back or leg problems
- **Expectant mothers**
- People with vehicles low to the around
- People with trucks and SUVs

How to use the Handybar®:

Locate the U-shaped striker on your vehicle door frame. (Your striker may look different.) The striker is a very strong component of a vehicle.

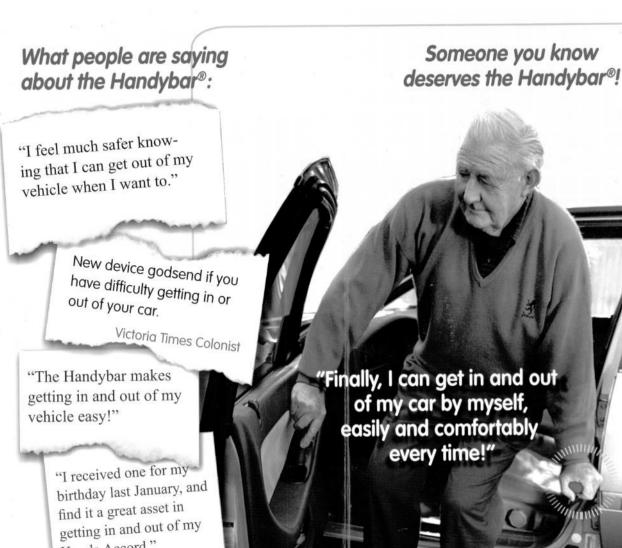

Insert the Handybar® firmly into the striker, as shown.

When the Handybar® is firmly wedged into the striker as shown at left, it is safe to use for support and balance.

Support yourself on the Handybar® as you get in or out of your vehicle, the same way you use the arm of a chair when sitting or rising.

Honda Accord."

Yours truly. Peter F.

"I think the Handybar is a wonderful invention, and would highly recommend it." Yours truly, Mary P.

The Handybar® is recommended by **Doctors** and Health Professionals.
