

Non-Reinforced AAMI Level 3 Surgical Gowns

Protection you need. Value you want.

#1 Cardinal Health is the
US Market Share Leader
in Surgical Gowns¹

Did you know that the Cardinal Health™ Non-Reinforced Surgical Gown is the #1 selling AAMI Level 3 surgical gown? It's true. It features the AAMI Level 3 SMS material you know and trust. Plus, the new royal blue color allows you to quickly differentiate between our AAMI Level 3 Non-Reinforced surgical gown and our AAMI Level 4 SmartGown™.

Biocompatibility:

Cardinal Health™ Surgical Gowns are tested for and meet the toxicity requirements contained in the ISO 10993 standards for biological evaluation and biocompatibility testing of medical devices.

Flammability standard:

Cardinal Health™ Surgical Gown materials meet the “Standard for the Flammability of Clothing Textiles” for disposable surgical drapes and gowns required by the Consumer Product Safety Commission (16 CFR Part 1610, formerly CS 191-53). The base fabric comprising Cardinal Health™ Surgical Gowns meets Class 1: Normal Flammability, which is the rating required for consumer use. Cardinal Health promotes the safe use of our products and does not recommend placing any ignition or heat source in contact with our surgical gowns.
