

Household

Leg Loop™ Leg Lift

Foot loop stays open making it easier to position over foot, then closes when strap is pulled. Assists people with limited lower extremity strength to lift the leg and foot onto a wheelchair footrest, bed, into a car, etc. Rigid middle section allows for easy maneuverability. 36" (91.4 cm) in length.

Bed Rope Ladder

Helps people who have trouble getting up in bed to pull them into a sitting position. Ladder attaches to the bed frame and consists of five plastic rungs. Total length is 57-3/8" (145.7 cm).

Stick-to-Stand System

Measuring stick ensures that adjustable furniture (beds, chairs, commodes, etc.) is set at the correct height reducing the risk of falls. The Stick-to-Stand System enables you to correctly measure a person's lower leg length and then, without having to do any math, determine the correct furniture height for the individual by simply following the color coded lines on the stick.

Bed Assist Bar

Built to last, featuring a soft grip for comfort, pocket for handy storage and full length legs and straps for added safety. Sturdily constructed bar offers quick and easy tool-free assembly.

Big Lamp Switch

Big three-spoked knob creates more leverage and enables a person to turn lamp switches on and off with greater ease.

Swivel Seat

Removable machine washable cover. Slip resistant base provides security.

Medline Ultra Reacher

Product is specially designed with a full hand grip allowing the use of all four fingers for greater grip strength. Plus, non-slip rubber tabs over composite jaws latch onto items more securely. Weighs only 14 oz with a reach of 31" (79 cm).

Door Knob Extender

Converts a doorknob into a door lever providing extra leverage, making it easier for people with limited hand function to open doors.

Soft-Touch Leg Rest

Two position foot/leg rest helps to alleviate knee and back discomfort. Ideal for people with back, leg or foot pain and for people in wheelchairs who need to readjust their sitting position often in order to increase comfort and reduce the risk of pressure sores.
