

COVIDIEN

positive results for life™

Wings™ Quilted Moisture Vapor Permeable Underpad

Super Absorbent Soft Core with “Honeycomb Technology”

- Effectively wicks fluid away from point of insult
- Super absorbent polymer encapsulated in every cell for improved fluid management leads to drier skin, improved skin wellness, and increased patient comfort

Moisture Vapor Permeable Film

- Allows moisture vapor to transfer away from the patient while protecting bed linens from bodily fluids, helping to keep the patient dry and comfortable

Strong Cloth-Like Backsheet

- Promotes skin wellness
- Resists tearing and ripping

Spunbond Non-woven Topsheet

- Allows fluid to flow quickly into the core and away from the patient
- Soft feel for enhanced comfort

Wings quilted moisture vapor permeable underpads combine super absorbency with moisture vapor transfer technology to help keep patients dry and comfortable. Featuring “honeycomb technology,” super absorbent polymer is encapsulated in every cell for improved fluid management resulting in drier skin, improved skin wellness, and increased patient comfort. The moisture vapor permeable film channels moisture vapor away from the patient while keeping fluid from passing through to the bed sheet.

Film is impenetrable by fluids, but allows moisture vapor to pass through

Wings™ Quilted Moisture Vapor Permeable Underpad
