

# CURAD® Non-Stick Pads

**CURAD Ouchless Non-Stick Pads** are wound covers for post surgical wounds, light bleeding, large surface cuts, scrapes, and burns. Our non-stick pads are made of a soft, perforated mylar film bonded to a 100% cotton pad that is highly absorbent and breathable. The film is ventilated to allow the wound to breathe and absorb any fluids. The pad can be cut or trimmed to fit most wounds. Pads are available with or without adhesive tabs.

**Specialized coating on the pad won't stick to wound.**

**Triple Layer Protection**
